

2011 Junior Dairy Quiz Bowl Questions

Round 01

Phase B 5 Questions Correct answers are worth 10 points each.

Only the team being asked the questions is to be in the room. Each team will be asked these 5 questions. Answers are to be given by a team captain, but assistance may come from any team member. A question may be repeated only once. Answers must be started within 20 seconds. Partial credit may be given at the discretion of the judges. After one team has been questioned, the other team will enter the contest room and be asked the same 5 questions.

1. Ovulation is the process of:

- a) delivering a calf from the uterus**
- b) milk ejection from an alveolus**
- c) release of an egg from a follicle**

ANS: c) release of an egg from a follicle

- a) alveoli**
- b) myoepithelial cells**
- c) lumen**
- d) teat cistern**

ANS: d). teat cistern

5. What compartment of the cow's stomach is called the true stomach?

- a) rumen**
- b) abomasum**
- c) omasum**
- d) reticulum**

ANS: b) abomasum

Phase C

20 Questions

Correct answers are worth 15 points each.

Both teams are in the room for Phase C. The first contestant to signal will answer the question within 5 seconds after being acknowledged by the moderator. Failure to do so will cost that team 10 points. Any contestant answering a question without being acknowledged by the moderator will lose 10 points. If an answer is incorrect, members of the other team will have the opportunity to answer the question without having it reread except for true/false, either or and yes or no type questions. If an answer is given in these types of questions, the question will be replaced with a tie breaker question, and given to the other team. No points are deducted for giving an incorrect answer. Team members are not allowed to discuss the answers in this phase. No partial credit is available in Phase C, except for bonus questions. If neither team can offer an answer to the question within 10 seconds, the moderator will give the answer and the question will be dropped but neither team will forfeit points.

1. There are 9 kilocalories of energy provided in one gram of:

- a) water b) fat c) carbohydrate d) protein

ANS: b) fat
